EMPOWER! (Equipping, Mentoring, and Providing Opportunities for Women in Entrepreneurship!):

The women who join our program have many stories to tell. Some have experienced many years of abuse or other atrocities. Yet, here they find hope and healing and gain self confidence as they learn new skills and meet new friends. We are ever humbled by their grace and perseverance. Such beautiful souls!

Some of our graduates saw a need, and started making uniforms for local schools. One entrepreneur has done so well she hired an employee to help her in her business! Others who have taken our course in Kampala have gotten jobs in the city.

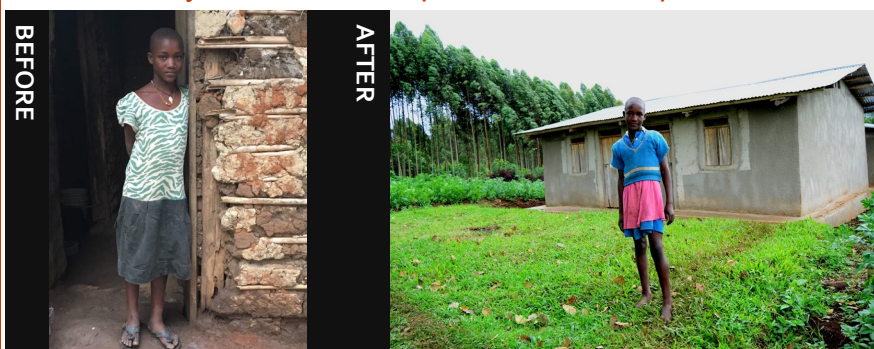

Many have either been gifted or have purchased their own sewing machines which gives them flexibility in their businesses.

A \$100 sewing machine
= a changed life!

Homes for the Homeless Program

Recently, the chairman of the LC3 (local council government), (in a district in which we operate in Uganda), came to us urgently seeking help for a family in need. It was truly a miracle that we were able to provide this family secure housing (one of the children is pictured here). It was only a matter of a few days that we were able to move them out of the mud and stick home they were previously staying in. One of the kids asked 5 times if the brand new bed that we were giving her to sleep on was actually HERS! They were praising God that they could now sleep in comfort and peace.

We are so thankful that we had just recently purchased a plot of land with a small house on it and were able to help. No sooner than we were discussing what to do with the structure, than this family came to us. It is just another reminder that God has his plans and His timing is always perfect!

Harmony Life Kids!

One thing we do as part of our sponsorship program is to assess a family's needs and to be there to support them emotionally, spiritually and sometimes financially as well. One day, while visiting one of our children who was fairly new to the program, we found all of this laying out to dry in the sun. These were their bedsheets, a 'mattress' and a blanket. This truly is the extent of what poverty can do.

Because of sponsorship, these items are now replaced with real bedding as well as a mosquito net to help prevent Malaria. Sometimes the small things are actually quite big.

We continue to pray for a ministry vehicle!

A van like the one pictured below is what would meet our needs best in Uganda. We have been renting vehicles when we need them, but it is expensive and it would be a huge blessing to have our own. This type of vehicle would cost approximately \$15,000 and would be used for many things including:

- Transportation for staff, volunteers and mission teams.
- Transporting sponsor children to and from school during holidays or for ministry events
- Transportation for those who are sick to get medical treatment.
- Hauling materials for projects.

MOVING!!*
